Education: 3%

Inspiring the employees of Huntsville Hospital to impact the health of our community through charitable contributions.

 **Lifesaver Club**

a program of  HUNTSVILLE HOSPITAL FOUNDATION

TAKE A LOOK AT OUR YEAR SO FAR..

...and hear from some of our members!

"I am proud to support the Lifesaver Club because this important program helps supply our staff with the equipment they need to provide excellent care to our patients. It's a way to lift up our vital health care workers and let them know that the work they do is important, impactful, and irreplaceable. They can come to work knowing that their voices will be heard and their needs will be met."

- John Simms, MBA | Project Coordinator
Mobile Medical Unit and Community Health Initiative

"Donating to the Lifesaver Club is a win-win for employees and the community. The funding provides new and updated equipment that benefits the patients as well as the employees. We are very appreciative of all the equipment we receive from Lifesaver Club funding."

- Tammy Colson, MSN, RN | Unit Director
3W&C Surgical Unit & 4NEE Adult ICU

Happy New Year! While our hospitals and staff continue to face many challenges this year, we would not be able to provide new equipment, patient programs and assistance to our co-workers annually without your support. Your generosity means SO much. We are committed to continue funding top-priority needs and helping our community with your gifts. We are so proud to work with you! Thank you!
